DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 21-37 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the originally claimed invention was drawn to rearranging in an order of a first processing significance degree and an order of a second processing significance degree wherein these degrees were defined as being in accordance with a size value. The newly submitted claims are drawn to data arranged in priority order being rearranged in sequential order and rearranged again in priority order. The rearranging order of the newly submitted claims is independent from the originally claimed order of a first or second processing significance degree.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 21-37 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Conclusion

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 2185

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
